

HISTORICAL DATA

1

Resources

2

- **Historical Data Retrieval**
- Storage Allocation and Carryover
- Water Right Accounting
- WDI Annual Books

1 – Navigate to the “Historical Data” tab

2 – Select the “Historical Data Retrieval” link

Explanation

The data available from this page are daily values for flows, diversions or reservoir contents. You may select multiple sites, for multiple years. Submit your request to view tabular reports of the data, which is available for download, graphing or as a Watermaster-style report (PDF).

Step 1. Select River System

Upper Snake River

Legend for selecting years

- Accounting only
- History only
- Both

Step 3. Select one or more years

<input type="checkbox"/>	Year
<input checked="" type="checkbox"/>	2021
<input type="checkbox"/>	2020
<input type="checkbox"/>	2019
<input type="checkbox"/>	2018
<input type="checkbox"/>	2017

Step 2. Select one or more sites

485 sites

Show Only Selected Sites

Search:

<input type="checkbox"/>	Site ID	Site Type	Site Name	HST Count	ALC Count
<input type="checkbox"/>	13037855	P	C NEWBY # 1 PUMP	43	34
<input type="checkbox"/>	13037860	P	C NEWBY # 2 PUMP	43	34
<input type="checkbox"/>	13037880	P	C NEWBY # 3 PUMP	43	34
<input checked="" type="checkbox"/>	13037975	D	EAGLE ROCK CANAL NEAR IDAHO FALLS	45	34
<input type="checkbox"/>	13037977	F	EAGLE ROCK CANAL AT END	43	34
<input type="checkbox"/>	13037980	D	FARMERS FRIEND CANAL NEAR IDAHO FALLS	45	34

<input type="checkbox"/>	13038025	D	BUTLER ISLAND CANAL	45	34
<input type="checkbox"/>	13038030	D	ROSS AND RAND CANAL	45	34
<input type="checkbox"/>	13038047	E	COVINGTON BROS EXCHANGE WELL	42	0
<input type="checkbox"/>	13038050	D	STEELE CANAL	45	27
<input type="checkbox"/>	13038055	D	HARRISON CANAL	45	34

Step 4. Submit your request

The list of available years (in Step 3) is updated to reflect the years for which data is available for the most recently selected site. Since the available years vary by site, there may be site/year combinations for which no data will be returned. Data for all selected sites will be available on the **Report** page but you will view data for one site, for one year at a time. For more details, view the [Users' manual](#).

Submitting a data request means that you have read and agree to the [Conditions of Use](#).

Submit

Select relevant information for the specific diversion and year.

The data for the selected year are provisional and subject to change!

Historical data for Site ID:13037975

Daily mean values for discharge in cubic feet per second

Diversion name: EAGLE ROCK CANAL NEAR IDAHO FALLS

Irrigation Year, November 2020 To October 2021

The “History” tab highlighted by the red box will show the record of daily diversion rate in CFS for the selected diversion and on what day the water was diverted.

The “Accounting” tab highlighted by the yellow box will show more specific information for the diversion including a record of the daily storage diverted and total storage diverted for the season as shown in the following screenshot.

Accounting Date	Flow (CFS)	Total Diversion to Date (AF)	Daily Storage Diversion (CFS)	Storage Diversion to Date (AF)	Remaining Storage (AF)	HSTDate
